It is delivered in a relaxed and informal environment. The sessions encourage discussion, strengthen working relationships, break down boundaries across different aspects of the organisation, share experiences, improve morale, improve health and well-being and provide exposure to different subjects.

**Aim** To provide all staff across the organisation an opportunity to acquire new information and knowledge for professional and personal development.

Where possible, we choose topics to match local and national awareness days.

These sessions provide presentation experience opportunities, utilise hidden staff skills and engage local service providers. The sessions also provide a forum to share news and celebrate events.

Recent topics have included:

- What is social media?
- Skin cancer awareness
- Eating salt
- Walk to the park
- Sharing stories
- Desert island discs – music reflection
- Mindfulness
- Laughter therapy
- Recording your learning
- Choices after death from a local funeral director.

Future topics include flower arranging, computer skills and continuing professional development sessions.

**Evaluation and sustainability** Feedback suggests the sessions are appreciated, useful and informative. Sessions are varied and interesting. Staff are encouraged to suggest topics. Directors are supportive and encouraging of staff attendance to these sessions. Staff can attend without guilt. Given numerous part time staff, we will trial alternating days to be more inclusive. Clinical training now stays in clinical areas.

All sessions incur no cost as all external speakers provide their services free of charge.

**P-238 A CROSS-ORGANISATIONAL APPROACH TO EDUCATION IN PALLIATIVE AND END OF LIFE CARE**

1Anna MacPherson, 2Jeanette Shepherd, 1East Lancashire Hospitals NHS Trust, Burnley, UK; 2Pendleside Hospice, Burnley, UK

10.1136/bmjspcare-2016-001245.259

**Context** Increasing access to appropriate education and training in palliative and end-of-life care are widely recommended to improve patient care. Coordinating and delivering an up-to-date education programme to meet the needs of varied health and social care professionals takes significant time and resources. We decided to approach this from a locality perspective, aiming to make the most effective use of all resources available.

**What is being done?** All relevant local organisations agreed to be involved, including hospices, acute trust, community service providers, clinical commissioning groups and social care.

An overall strategy was developed following local consultation, and an action plan developed:

**Aims** To provide all staff across the organisation an opportunity to acquire new information and knowledge for professional and personal development.

Where possible, we choose topics to match local and national awareness days.

These sessions provide presentation experience opportunities, utilise hidden staff skills and engage local service providers. The sessions also provide a forum to share news and celebrate events.

**P-239 TOMORROW’S CARERS – HELPING TO UNLOCK THEIR POTENTIAL!**

Trisha Wilcock, Sue Marshall. ellenor, Gravesend, UK

10.1136/bmjspcare-2016-001245.260

**Background** The hospice identified previous work placements offered internally provided an inconsistency of experience for learners, with multiple requests placing a burden on care staff, resulting in a review of the model of student support. This closely related to influential factors for future work force planning as follows: increasing demand on health and social care services; growing role of hospices as educators; a need to influence student career choices as early as possible; reluctance to expose young people to direct care.

To extend opportunities, funding was obtained from Health Education England to trial different models of support.

**Aims**

- Increase number of students experiencing hospice care
- Provide alternative structured training models
- Provide consistent positive experience of care delivery
- Support workforce to stimulate student experiences.

**Approach** Comparison of two supported training models:

1. One week accredited course
2. Six month placement.
